

FCC Commissioners
The Federal Communications Commission RE: Docket 04-435
445 12th Street, SW
Washington, DC 20554

Dear FCC Commissioners ,

I am writing to voice my concerns about the FCC's proposal to relax the restrictions on the use of cell phones on airborne airplanes. I will lose all respect for the FCC if you do relax restrcitions, and will gladly finance a campaign in the media against the FCC should it wreak such havoc on our airways. Just don't do it. Allowing people to use cell phones on flights will make other passengers insane, flight crews insane, and with GPS systems available you're enticing people with bad intentions. I will hold the FCC personally responsible if any harm comes to anyone I love due to an attempt at relaxing these restrictions.

There is no hard evidence that cell phone use doesn't interfere with navigational instruments. The introduction of cell phone use in the cabin will not only increase tension among passengers, it will compromise flight attendants' ability to maintain order in an emergency. Cell phone use could also enable terrorists to coordinate a plan of action more effectively.

Please leave the current rules in effect.

Sincerely,

Harrison Reiner
